

Prime Enrollees Consumer Watch

WEST ♦ Quarter 1 FY 2020

DIRECTORATE OF STRATEGY, PLANNING AND FUNCTIONAL INTEGRATION (J-5)

Inside Consumer Watch

TRICARE Consumer Watch shows what TRICARE Prime enrollees in your region say about their healthcare in the Health Care Survey of DoD Beneficiaries (HCSDB). Every quarter, a representative sample of adult TRICARE beneficiaries are asked about their care in the last 12 months and the results are adjusted for age and health status and reported in this publication. This publication reports results for beneficiaries under age 65 and compares responses for beneficiaries with a military primary care manager (PCM) (direct care) to those with a TRICARE-authorized civilian provider (purchased care). These results are compared to civilian benchmarks which are adjusted for age and health status to match the population of TRICARE beneficiaries.

The HCSDB includes questions from the Consumer Assessment of Healthcare Providers and Systems (CAHPS), a survey designed to help consumers choose among health plans. Benchmark data comes from the National Committee for Quality Assurance (NCQA) for 2018 as well as the U.S. Department of Health and Human Services Healthy People 2020 (HP2020) goals.

Results

Source: Health Care Survey of DoD Beneficiaries

This section displays a series of charts showing percentages of beneficiaries who rated a certain aspect of their care highly in the surveys fielded in the first quarter of fiscal year 2020, describing the period November 2018 to December 2019, and each of the 2 previous quarters. These ratings are compared to the civilian benchmark indicated with a horizontal line, Percentages that differ significantly from the benchmark are indicated with filled points and percentages that do not differ significantly from the benchmark are indicated with open points.

The same information displayed in figures 1-9 is given in tabular form in the corresponding figures in the appendix.

How to read the charts:	
● 61	Percentage of respondents who rated 8 out of 10 or higher
---●---	Scores for Prime Enrollees (line with point)
-----	Benchmark (line without point)
●	Value differs significantly from benchmark
○	Value does not significantly differ from benchmark

Health Care

Prime enrollees were asked to rate their healthcare from 0 to 10, where 0 is worst and 10 is best. Figure 1 shows the percentage of direct care users and purchased care users who rated their healthcare 8 or above for each reporting period. Health care ratings depend on things like access to care, and how patients get along with the doctors, nurses, and other care providers who treat them.

Health Plan

Prime enrollees were asked to rate their health plan from 0 to 10, where 0 is worst and 10 is best. Figure 2 shows the percentage of direct care users and purchased care users who rated their plan 8 or above for each reporting period. Health plan ratings depend on access to care and how the plan handles things like claims, referrals and customer complaints.

**Figure 2:
High Rating of Health Plan**

**Figure 4:
High Rating of Specialty Care**

Personal Provider

Prime enrollees who have a personal provider were asked to rate their personal provider from 0 to 10, where 0 is worst and 10 is best.

Figure 3 shows the percentage of direct care users and purchased care users who rated their doctor 8 or above for each reporting period. Personal doctor ratings depend on how the patient gets along with the one doctor responsible for their basic care.

**Figure 3:
High Rating of Personal Provider**

Specialist

Enrollees who have consulted specialist physicians were asked to rate from 0 to 10 the specialist they had seen most in the previous 12 months.

Figure 4 shows the proportion of direct care users and purchased care users who rated their specialist 8 or above for each reporting period. Specialist ratings depend on beneficiaries' access to doctors with the special skills they need.

Health Care Topics

Health Care Topics scores average together results for related questions. Each score is the percentage who “usually” or “always” got treatment they wanted or had “no problem” getting a desired service.

Figure 5 (Getting Needed Care) includes getting referrals to a specialist and getting needed treatments.

**Figure 5:
High Rating of Getting Needed Care**

Figure 6 (Getting Care Quickly) concerns how long patients wait for an appointment or urgent care.

Figure 7 (Doctor's Communication) includes the composite for "How well doctors communicate." Scores in "How well doctors communicate" are based on whether the personal doctor spends enough time with patients, treats them respectfully and answers their questions.

Figure 8 (Customer service) includes patients' ability to get courteous service and information about their health plan.

Figure 9 (Claims processing includes both the timeliness and correctness of plan's claims handling.

Preventive Care

The preventive care table compares direct care users and purchased care users' rates for diagnostic screening tests and smoking cessation with goals from Healthy People 2020, a government initiative to improve Americans' health by preventing illness.

The mammography rate shown is the proportion of women 40 or above with a mammogram in the past two years. Pap smear is the proportion of adult women screened for cervical cancer in the past three years.

Hypertension is the proportion of adults whose blood pressure was checked in the past two years and who know whether their pressure is too high. Prenatal care is the proportion of women pregnant now or in the past 12 months who received prenatal care in their first trimester. Percent not obese is the proportion with a body mass index below 30. The non-smoking rate is the proportion of adults who currently do not smoke. Counseled to quit is the number of smokers or tobacco users whose doctor told them to quit, over the number of smokers and tobacco users with an office visit in the past 12 months.

Table 1: Preventive Care

Type of Care	Group	Q2FY19	Q3FY19	Q1FY20	HP2020 Goal
Mammography	Direct Care	88 ^a (488)	82 (426)	87 ^a (350)	81
Mammography	Purchased Care	84 (140)	77 (143)	83 (152)	81
Pap Smear	Direct Care	80 ^b (909)	75 ^b (805)	76 ^b (793)	93
Pap Smear	Purchased Care	76 ^b (247)	77 ^b (294)	83 ^b (290)	93
Hypertension	Direct Care	87 ^b (2255)	87 ^b (1811)	88 ^b (1838)	95
Hypertension	Purchased Care	94 (373)	96 (424)	91 ^b (422)	95
Prenatal Care (in 1st trimester)	Direct Care	86 (83)	99 ^a (56)	93 ^a (83)	78
Prenatal Care (in 1st trimester)	Purchased Care	97 ^a (30)	96 ^a (40)	88 (36)	78
Percent Not Obese	Direct Care	80 ^a (2114)	79 ^a (1681)	78 ^a (1710)	69
Percent Not Obese	Purchased Care	69 (348)	71 (397)	73 (376)	69
Non-Smokers (adults)	Direct Care	93 ^a (2171)	92 ^a (1747)	94 ^a (1773)	88
Non-Smokers (adults)	Purchased Care	97 ^a (361)	96 ^a (411)	97 ^a (408)	88
Counseled To Quit (adults)	Direct Care	80 (273)	60 (185)	77 (191)	76
Counseled To Quit (adults)	Purchased Care	-	-	-	76

^a significantly exceed the Healthy People 2020 goal ($p < .05$).

^b significantly fell short of the Healthy People 2020 goal ($p < .05$).

The numbers in parentheses indicate number of respondents.
